Re: Amendment of Parts 1, 2, 22, 24, 27, 90 and 95 of the Commission's Rules to Improve Wireless Coverage Through the Use of Signal Boosters, WT Docket No. 10-4

Dear Ms. Dortch:

On October 6, Richard Harvey, Andy Lachance, and Tamara Preiss of Verizon; Joe Banos of Wilson Electronics; Russell Lukas, counsel to Wilson; and Ed Thomas, consultant to Wilson, met with the following Commission staff regarding the above-captioned proceeding: Julius Knapp, Alan Stillwell, and Walter Johnston from the Office of Engineering & Technology; and John Leibovitz, Roger Noel, Joyce Jones, and Becky Schwartz from the Wireless Telecommunications Bureau.

During the meeting, the Verizon and Wilson representatives discussed how to implement the joint proposal they filed in this proceeding,¹ particularly the technical specifications for the proposed Consumer Boosters. We suggested that the technical specifications for Consumer Boosters should be adopted by the Commission as a Phase I standard to protect commercial wireless networks from harmful interference from signal boosters. These specifications would then be reviewed and amended, as necessary, by a body of industry representatives and then submitted to the FCC for adoption as a Phase II protection standard.

This letter is being filed electronically pursuant to Section 1.1206 of the Commission's Rules. Should you have any questions regarding this letter, please contact the undersigned.

Sincerely,

A handwritten signature in black ink, appearing to read "John Leibovitz".
